PROFESSIONAL EXPERIENCE

Pediatric Dentist Supersmiles Orthodontics & Pediatric Dentistry, Plantation, FL

December 2016 – Present

Pediatric Dentist American Pediatric Dental Group, Doral, FL

August 2015 – November 2016

Associate dentist providing comprehensive dental care for infants, children and adolescents including a multitude of patients with special needs in an energetic, fast-paced private pedodontic and orthodontic practice focused on providing positive dental experiences.

- Engaged in all aspects of dentistry including diagnosis, treatment planning, space management and restorative treatment of deciduous and permanent dentition.
- Provides anticipatory guidance, oral hygiene instructions, dietary counseling and overall oral health education to patients and parents.
- Easily handles treating multiple patients per hour, running multiple operatories, and utilizes time efficiently to optimize patient experience.
- Recognized for performing high quality dental work and building strong relationships with patients and parents, evident by patient loyalty and retention.
- Trained assistants, facilitated patient scheduling and collaborated with dentist to improve effectiveness of office procedures and processes.

Pediatric Dental Resident Stony Brook University, Stony Brook, NY

June 2013 – June 2015

Achieved proficiency in non-pharmacologic and pharmacologic behavior management techniques, all phases of pediatric restorative dentistry including endodontics, oral surgery, orthodontics, treatment of traumatic injuries, conscious sedation and comprehensive dental treatment in the operating room and in office general anesthesia.

- Carried the title of Clinical Assistant Instructor and responsible for the education of dental students and junior residents through clinical oversight and lectures.
- Trained in ACLS (Advanced Cardiac Life Support) and PALS (Pediatric Advanced Life Support).

Charge Nurse Seabury Retirement, Bloomfield, CT

May 2010 – October 2011

Responsible for delivery and coordination of clinical and non-clinical activities related to care of residents on a 60 bed skilled nursing unit. Ensured maintenance of quality standards by developing patient plan of care in partnership with physicians, interdisciplinary teams and patient/family.

- Collaborated effectively with an interdisciplinary team of medical and health care professionals comprised of physicians, nurse managers, dietitians, social workers, case managers, pharmacists, nurse technicians, respiratory, speech, occupational and physical therapists.
- Supported, evaluated, and supervised patient care and unit needs during assigned shifts.
- Made patient assignments and delegated unit specific task assignments to ensure needs are met. Monitored completion of unit assignments

School Nurse Irving Robbins Middle School, Farmington, CT

May 2010 – August 2010

Provided medical care to pupils, members of staff and visitors while on site.

- Promoted health education throughout the school community and took effective preventative health measures.
- Worked with staff, pupils and counselors to develop health-related policies (e.g. sound nutrition, physical activity, 'healthy lifestyle' as well as develop new initiatives in response to new research findings, examples of good practice or new policy initiatives.
- Maintained medical and nursing records accurately, confidentially and safely in accordance with the HIPAA Laws.
- Provided total patient care to special needs students.

Resident Care Coordinator (Unit Manager) Washington Center for Aging Services, Washington, DC May 2009 - August 2009

Accountable for directing and coordinating all patient care practices by members of the care team including RNs, LPNs and CNAs for 31-bed, long term care unit. Ensured maintenance of quality standards by developing patient plan of care in partnership with physicians, interdisciplinary teams and patient/family.

- Managed and coordinated the care of patients in a defined care delivery model, utilizing the nursing process, which includes assessment, planning, implementation and evaluation.
- Supervised and delegated all nursing care provided to patients based on abilities and limitations of care personnel and patient acuity. Continually monitored performance of team members, reporting adjusts to the delivery of care or clinical technique appropriate to patient.
- Documented nursing care and patient status in accordance with the nursing process and standards of care.
- Complied with federal and state regulations regarding completion and coordination of the RAI process.
- Monitored MDS and care plan documentation for all residents including ensuring that documentation is present in the medical record to support MDS coding. Maintained current MDS status of all residents according to state and federal guidelines. Supported the tracking system of MDS schedules (timeframes and due dates).
- Maintained the frequent and accurate data entry of resident information into appropriate computerized MDS programs.
- Oversaw and evaluated staff for compliance with state standards of care appropriate for preparation and hosting of state survey inspectors.

Nursing Supervisor Wintonbury Care Center, Bloomfield, CT December 2007 - February 2009

Responsible for supervision of a staff of up to forty LPNs, RNs and CNA skilled nursing staff within a 150 bed skilled nursing facility.

- Documented nursing care and patient status in accordance with the nursing process and standards of care.
- Ensured patient care met established nursing care standards and the JCAHO National Patient Safety Goals
- Identified staffing needs and levels in determining patient care assignments based on nursing skill levels and patient needs.
- Role model for promoting a caring environment for patients, staff, families, visitors and physicians.
- Monitored and evaluated patient care through direct rounds and consultation
- Responsible for acute and Medicare documentation including care planning and MDS documentation.

Neurosurgery/Orthopedics Nurse Hospital of Central Connecticut, New Britain, CT August 2006 - July 2007

Provided pre- and post operative nursing care for adult and geriatric patients with medical conditions including musculoskeletal injuries, neurological disorders as well as other medical/surgical overflow patients.

- Educated patients and their families on disease processes, medical-surgical procedures and other aspects of therapeutic regimens, including medication and pain management techniques.
- Provided a broad range of general nursing care services in areas of physical assessments, vital signs, EKG, telemetry, phlebotomy, catheters, feeding tubes, IV and central lines.
- Safely administered oral, topical, intravenous, intramuscular and subcutaneous medications and monitored for potential side effects of medications demonstrating strong observation, assessment, and intervention skills. Reassessed and revised patient plan of care as needed.
- Collaborated effectively with an interdisciplinary team of medical and health care professionals comprised of physicians, nurse managers, dieticians, social workers, case managers, pharmacists, nurse technicians, respiratory, speech, occupational and physical therapists.
- Managed charge nurse responsibilities including staffing and rotating floor coverage for two units.
- Recommended and implemented changes to the medical unit regarding assignment delegation and prioritization, resulting in a higher standard of patient care.
